

Why LPN to RN at A-Tech?

The LPN to RN Diploma Program at A-TECH offers a unique educational environment that understands the learning needs of the LPN and can facilitate your educational transition to the role of the registered nurse. The close interaction with faculty, small group atmosphere, superior technology and supportive environment is the ideal setting for you to reach your professional goals.

The program will prepare you to work in a variety of healthcare settings with culturally diverse seniors, adults, adolescents, children and infants. You will learn critical thinking skills, assessment skills and interventions that promote and restore health. You will explore a holistic approach to nursing care of the childbearing and childrearing family as well as the patient experiencing physical and mental health problems. Throughout the program, you will be participating in classroom study, laboratory practice, simulation, self-directed exploration, and dynamic clinical experiences that will prepare for the demands of a rewarding nursing profession.

The Ashtabula County Technical and Career Center does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth group.

The LPN to RN Diploma program is a 12-month program (49 weeks). Classes meet Tuesday through Friday 7:00 a.m. – 3:30 p.m. Students are now being considered for 2018-2019 admissions.

This program has received full approval from the Ohio Board of Nursing.

Graduates of the program are eligible to take the National Council of Licensure Examination (NCLEX) for licensure as a registered nurse. Licensure as a registered nurse is based upon successful completion of all course requirements and achievement of a passing score on the NCLEX examination.

The LPN to RN Diploma Program at A-Tech has a Dual Enrollment Agreement with Ursuline College for students to obtain their BSN.

FUTURE EMPLOYMENT

“Employment of registered nurses is projected to grow 19 percent from 2012 to 2022, faster than the average for all occupations. Growth will occur for a number of reasons, including an increased emphasis on preventative care; growing rates of chronic conditions, such as diabetes and obesity; and demand for healthcare services from the baby boomer population, as they live longer and more active lives.”*

ADMISSION CRITERIA

Admission to the LPN to RN program is a competitive process and is based on the candidate's ability to meet the established Admission Criteria. It begins with a successful score on the pre-entrance exam. Students must then meet the minimum criteria listed below for consideration by the Admission's Committee. The number of available seats in the program is limited. Completion of all criteria does not guarantee admission into the program. Candidates will be assessed and scored based upon the established criteria.

- Proof of LPN license with meds and IV (licensure without restrictions)
- Satisfactory pre-entrance test
- Official transcript from practical nursing program
- Pre-requisite college course work from an accredited university with an earned grade of C or better:
 - ▶ College level Math Course (i.e. Algebra, Statistics) – 3 credit hours
 - ▶ Microbiology – 3 or 4 credit hours
 - ▶ Anatomy & Physiology – 5 credit hours
 - ▶ Chemistry – 3 credit hours
 - ▶ Psychology – 3 credit hours
 - ▶ Sociology – 3 credit hours
 - ▶ English Composition – 4 credit hours
- Essay
- Professional References

Other Requirements:

- Physical examination clearance with negative drug screen.
- Proof of immunizations (T-dap, influenza, Hepatitis B, MMR, and Varicella)
- Background check (BCI and FBI)*

*Clinical experience is a mandatory component of the program, should a background violation prohibit clinical placement, the student will be unable to continue in the program. Any concerns should be discussed early on in the application process with the program administrator or coordinator.

COURSE OF STUDY

- **Nursing Transitions**
Assists student with the foundational understanding of the role of the RN and will focus on theory, nursing process, evidenced based practice, critical thinking skills and legal and ethical issues.
